LOUIS HAYES:

**Gettin' on with it!
Where the drumstick tip
Meets the metal
Where the hard edged
Steel bell sound of
The ride cymbal rings
Where a rapidly coiled snare drum roll
Pierces the very fabric of your being
Where an awe-striking drive of offset hits
Stops you dead in your tracks
Where a cymbal's softly suspended wispy resonance
Could not be more deeply felt
Where core-bred feelings
Brand each moment
You listen, you look, you see
And you downright know
He owns it.**

**Where a dialogue of rhythm-driven figures are accented with
pinpoint articulation! Where the hand-worked art of each
play's custom textured tones strike a perfect balance.**

**Where amidst the swift and grid of it all
Louis Hayes gets on with it
Centered Steadfast Seamless**

**At the Jazz Standard
An honor A privilege
Reflectively everlasting.**
